

## Table of Contents

### Anthropometric Assessment Tools

- Ideal Body Weight Estimation
- Masters' Tables
- Body Weight Adjustment

### Determination of Nutritional Status

- Nutrition Screening Tools
- % Ideal Body Weight (IBW)
- % Usual Body Weight (UBW)
- % Weight Change
- Body Fat Percentage Guidelines
- Body Mass Index (BMI)
- Body Adiposity Index (BAI)
- Edmonton Obesity Staging System (EOSS)
- Physical Signs & Symptoms of Nutritional Deficiencies

### Interpretation of Selected Laboratory Data

- Albumin
- Prealbumin
- Corrected Calcium
- Corrected Magnesium
- Acid Base Imbalance

### Assessment of Nutritional Requirements

- Estimation of Energy Requirements
- Estimation of Protein Requirements
- Estimation of Fluid Requirements
- Dietary References Intakes
- Vitamins and Minerals: Functions and Sources

### Nutrition Support

- Assessing Route of Nutrition Support
- Enteral Nutrition (EN)
- EN Complications
- Management of Diarrhea
- Parenteral Nutrition (PN)
- PN Complications
- Weaning PN
- IV Solutions
- Home Nutrition Support\*

### Condition-Specific Information

- Aging
- Amyotrophic Lateral Sclerosis (ALS)
- Bariatrics
- Burns
- Cancer
- Cardiovascular Disease
- Celiac Disease
- Complex Malignant Hematology (CMH)\*
- COVID-19\*
- Critical Care
- Dementia
- Diabetes Mellitus
- Dysphagia
- Gastrointestinal Disease
- Gout
- Human Immunodeficiency Virus (HIV)
- Liver Disease
- Mental Health\*
- Metabolic Syndrome
- Osteoporosis
- Pregnancy
- Pressure Injury
- Refeeding Syndrome
- Rehabilitation & Nutrition Management\*
- Renal Disease
- Stroke
- Trauma\*
- Urology\*

### Other Resources

- Complementary Alternative Medicine (CAM)
- Conversion Factors
