# ECHO Ontario Obsessive Compulsive Disorder

## What is ECHO Ontario OCD?

**CAMH** and the **Frederick W. Thompson Anxiety Disorders Centre** at **Sunnybrook Health Sciences Centre** are excited to announce the launch of ECHO Ontario Obsessive Compulsive Disorder. ECHO Ontario OCD aims to help healthcare providers build capacity in the treatment of OCD.

Each session consists of a **short didactic presentation** on a given topic followed by **case-based learning**, where healthcare providers present de-identified cases and get recommendations from the specialist team and other community partners.

## Why Join?

**Free!** ECHO is fully funded by the MOHLTC

**Virtual!** All you need is a computer & webcam or smartphone

**Fun!** Connect with a growing community of primary and allied health care providers across the province

*This group learning program has been certified by the College of Family Physicians of Canada and the Ontario Chapter for up to 2.0 Mainpro+ credits.*
