Bayview Avenue Road Resurfacing

Expected Start Date: June 2015

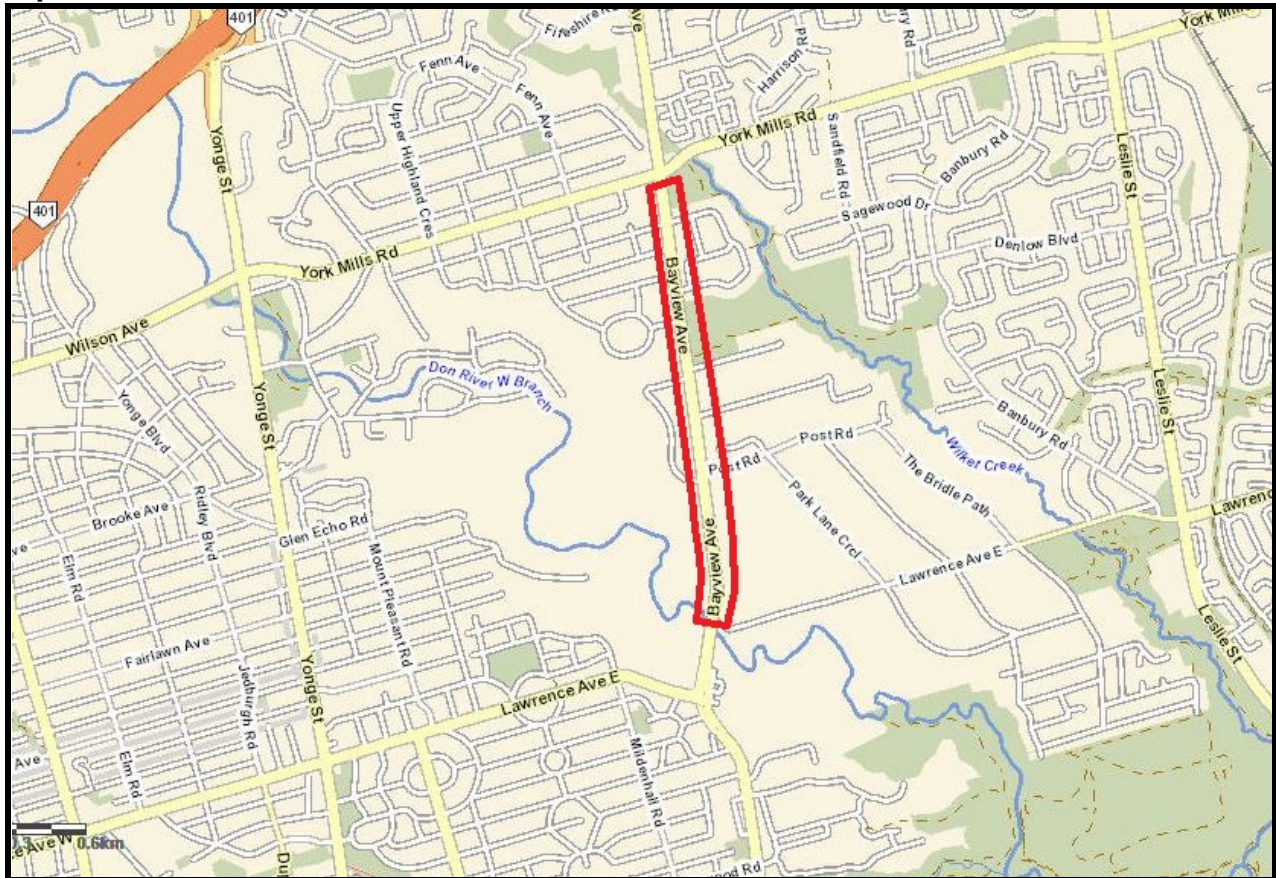

Expected Completion Date: September 2015

The City of Toronto will be resurfacing Bayview Avenue in order to improve the condition of the road. This project is part of the 2015 Capital Works Construction Program.

This work will take place on Bayview Avenue, from Lawrence Avenue East to York Mills Road.

A Construction Notice will be distributed with a more accurate start date and other information regarding the work. Your co-operation and patience during the construction period is crucial and appreciated.

Map of Work Area

Project Details

This project will involve:

- Replacing substandard curbs and sidewalks,
- Replacing substandard road base
- Resurfacing Bayview Avenue from Lawrence Avenue East to York Mills Road

Many people have planted landscaping, fences, irrigation systems or other physical features in front of their home which are within the City property limits. These may be in the way of the construction. In such cases, residents are advised to remove these items prior to the beginning of construction in order to avoid unnecessary damage. The City will not be responsible for damage to any privately owned items installed on the City's property.

Disruptions

During the first phase(s) of the project (June to August), all four (4) lanes of traffic will be maintained while shifting traffic to one side of the roadway (i.e. eliminating the centre turning lane). However, there will be lane restrictions on Bayview Avenue during the latter phase(s) of the project, (starting in August, lasting approximately 4 weeks).

Work Hours

In order to minimize the length and impact of this project, the City will allow the contractor to use extended hours on this project. Work may occur from 6 a.m. to 11 p.m. Monday to Saturday.

Next Steps

A construction notice will be issued approximately two weeks before construction starts and will provide further information on the project.
