

A Message from the Family of Injured Truck Driver

July 26, 2007

As family members of the truck driver injured on Monday on the 401 near Keele Street, we would like to thank members of the public and media for their inquiries and well wishes for our loved one who is currently being treated for his serious injuries at Sunnybrook Health Sciences Centre in Toronto. We would also like to thank the emergency response workers and a special thanks to the good Samaritans, who gave their time and effort to help during this terrible situation. We would ask that members of the media please provide us with some time and privacy to focus on the care and treatment of our family member as we manage through this period of recovery and healing.
